Programme ROMA UE

Since its creation in 1873, the Spanish Academy in Rome has played a fundamental role in the professional education of various generations of Spanish artists and intellectuals. Its primary objective is to contribute to the artistic and humanistic training of creators, restorers and researchers, and thus bring about a greater Spanish cultural presence in Italy, enhance understanding of the cultures of both countries and forge a stronger cultural link between Europe and Latin America.

To mark the Spanish Presidency of the Council of the European Union and to heighten the presence of European artists within our institution, the Academy has launched a scholarship programme specifically intended for artists from the European Union.

The purpose of this initiative is to generate a creative environment based on the relationships among artists from different origins, providing opportunities for mutual enrichment and highlighting the presence of the Academy as a European cultural centre.
